AFFIDAVIT OF ERIC DETERS

After being duly sworn and cautioned, and based upon my personal knowledge, I attest, under oath, to all the facts which follow:

Every American has felt the pain and injustice of the corporate healthcare system and/or legal injustice.

I wrote and published a book titled "*The Butcher of Pakistan*" detailing the saga of the Dr. Durrani victims and myself against this system. The sequel will extrapolate the story from 2020 to the present and all the further tortures which have befallen us.

I would like to reaffirm the magnitude and breadth of wickedness contained in the story:

1. Durrani performing unnecessary spine surgeries on unsuspecting victims.
2. The depth of pain and misery Durrani caused his victims.
3. Durrani's suspicious background.
4. The hospitals culpability.
5. The greed of Durrani and the hospitals.
6. The apathy of the Court system.
7. The cruelty of Medical Protective, Durrani's insurance carrier.
8. The challenge to fight the legal battle for thirteen years and counting.
9. The indifference of the media.
10. The story bewilderingly remains ignored by everyone.

If publicly told well, the story would be well received for the following reasons:

1. The public's insatiable appetite for law.
2. The public crisis of healthcare/corporate greed over patient care.
3. The corruption of the court system.
4. The grave injustice of it all.
5. It is a David v. Goliath story.

A light must be cast upon it all.

We failed to guilt the Durrani conspirators.

They refuse to be guilted.

We have no allies.

We have solicited allies without result.

Not one lawyer.

Not one organization.

Not one media outlet.

Not one famous podcaster such as Joe Rogan or Tucker Carlson. Donald Trump, Jr. and Kimberly Guilfoyle graciously did cover it on their Rumble shows. Donald Trump, Jr. stated there is a FBI investigation.

I am hopeful it will be brought to the small screen and big screen.

All of this is not from want of effort.

The general public does not realize the depths of greed in the medical and legal system.

I know the depths.

I speak of it.

I call them out.

And they hate me for it.

They want us to kneel.

They want us vanquished.

They desire our supplication and prostration.

They will never receive our capitulation.

It is only faith, hope and determination which allows us to battle the Durrani conspirators on the unlevel playing field graded and sloped to their advantage.

"True hope flies or swallows wings. Men it makes Gods and meaner creatures Kings." Shakespeare.

True hope. Not false hope.

I grew up on the lessons of the *Waltons* and *Little House on the Prairie*. I watched John Wayne and Clint Eastwood battle the "bad guys."

That is the America I still believe in.

Where good wins in the end.

I remain an optimist.

I ponder why is it, any man or woman, would choose greed over what is right. But they do every day.

In my 62-year-old stoicism wisdom, I know that when a man is in a pine box only his honor matters.

When the media fails to check the greed, the greedy continue on their path.

There is a cabal against us. There is a conspiracy. It involves the legislature, corporate healthcare, insurance companies, "big law" and the court system.

I will describe all the trials and tribulations of the Durrani victims and myself relative to the Dr. Durrani litigation. I am one of the few in this world who is willing to endure all which befalls someone fighting against power in a righteous cause. I am willing to sacrifice all on behalf of the Durrani victims. To the end…wherever that end may be.

There is not a single unbiased American who if they knew this story would not agree the conduct of the Durrani and his co-conspirators is beyond reprehensible.

What follows is the summary of the wholesale nightmare inflicted upon Durrani victims and myself as their advocate. A mere one of these prints is newsworthy. There are over 100. Remember, these cases involve Durrani performing unnecessary spine surgeries on thousands of victims at Cincinnati area hospitals from 2005 to 2013:

1. These victims face daily battles of excruciating pain and financial survival from their unnecessary spine surgeries and their aftermath.

2. The story is of national significance because it illustrates corporate, not patient driven, healthcare and demonstrates how the legal system and court system is controlled by the same medical/legal establishment.

3. I saved thousands of people from Durrani's butchering based upon publicly exposing him and providing prosecutors the information necessary to criminally charge him. Thousands cancelled surgery or would have not surgery with him after 2013.

4. 104 of the 580 victims we represent have died waiting for their trials. It is true some of the 580 cases have been lost or dismissed in some fashion, but each and every one of these victims have some course of action pending.

5. At the rate trials are scheduled, trials will be held for another 10 years for a total of 24 years. They have gone for 14 years so far.

6. We have won a record number of verdicts, including the largest in Ohio history for a medical malpractice case. The total is $338,645,592.98. $58,651,575.67 is covered under the $42 million Durrani insurance policies. Medical Protective refuses to make a single offer settle or pay any of them.

7. Covid delayed trials for nearly two years. The court system simply pressed pause rather than find a creative solution. Accept, not improvise is their way of doing business.

8. I pay millions for the team to try case after case including out-of-town experts flying in for every trial. It costs $1 million a year now. It was once $2 million.

9. Despite losing 80% of the trials, Medical Protective found two expert "whores" they have paid "who knows how much" to keep testifying for Durrani.

10. This trial after trial for years is unprecedented in history. We have tried over 100 trials in five years and 138 overall. No legal team has ever done this.

11. In medical malpractice cases, the defense wins 95% of the trials. We win 80%. This is 175% swing. Proof of the merit of the claims. No legal team has ever done this.

12. We have won the largest medical malpractice verdict in Ohio history, $39 million, and received no media coverage or acknowledgment from a single lawyer organization.

13. We won the only hospital negligent credentialing and retention verdict in Ohio history, against Cincinnati Children's Hospital, no media coverage or acknowledgement from a single attorney organization. It was over $3 million.

14. There has been more paid to the Durrani defense lawyers than the amount of coverage of $42 million. This would be only $100,000 per victim. Verdicts average $1 million and Medical Protective has never made one offer on one case. They have never put a single offer in writing and the most they have every offered verbally for all cases is $11 million.

15. One other group of lawyers had 30 Durrani cases, they accepted only $1 million for all 30 of their clients in 2015. They sold their clients out. We have not.

16. Our team of lawyers, staff and experts have made incredible sacrifices for the cause.

17. Some of my dearest and closest friends have given me massive blessed financial assistance.

18. Two Chief Justices of the Ohio Supreme Court, elected with millions of dollars from the healthcare industry, insurance industry, hospitals and the law firms who represent them, have refused to follow the Court's own rules on concluding cases within three years.

19. The Ohio Supreme Court has a rule all cases from filing to end must be resolved in three years. Not only have they not enforced this rule in Durrani cases, all efforts to force them to enforce it has failed.

20. Any lawsuit in Ohio besides a Durrani lawsuit filed from 2013 to 2022 is closed out and over with under Supreme Court rules. Not Durrani cases after 14 years. Can you fathom the Court system telling you, sorry about your luck but we do not care about your case because it is a Durrani case?

21. In March of 2023, Deters Law was forced to transfer the law firm over a weekend from one lawyer to another to avoid the Ohio Supreme Court threat of shutting the firm down and seizing control of the Durrani cases all over the Court's efforts to help the defense. It is truly mind boggling.

22. Our successful post-verdict judgments were not signed by Judges for over a year which delayed the appeals on our wins by a year or two.

23. In American history, no judge has ever sealed jury verdicts. Judge Mark Schweikert sealed the Durrani victims' verdicts. This included punitive damages verdicts which are meant to be a public condemnation.

24. The victims have faced unjust Ohio laws passed by the legislature without public knowledge including what is called the statute of repose. This requires a lawsuit to be filed within four years of the malpractice no matter when a victim discovers the harm. It is unconstitutional, but has been found constitutional by the Ohio Supreme Court. Most states have found it unconstitutional. Not Ohio. It is to protect their healthcare system donors.

25. Medical insurance companies and Medicare and Medicaid approved the unnecessary surgeries and then have sought reimbursement through what are called medical liens on the settlements we obtain. We sued them all on this issue. Many insurance companies waived liens after we sued them. Many still refuse. These laws have been written and passed by Republican and Democrat Congressmen and state legislators. It is a disgrace Americans have no idea it exists until they pursue a case.

26. Judge Schweikert ordered us to pay all the court costs even before a case is resolved. He wanted a $1 million deposit. This has never occurred in American legal history. We had to fight that off.

27. Judge Schweikert entered a gag order not to protect jury pools as claimed, but attempt to shut me up about his failure to provide trials.

28. With solid basis, as we learned more, we would file affidavits of disqualification against Judge Schweikert and Chief Justice O'Connor. Forty of them. The Chief Justice not only decided Schweikert's, but the ones against her. On Schweikert's she never granted one of them because Judge Schweikert would just say "I can be fair." The basis of these affidavits include countless examples of conflicts, prejudice and misconduct which would make any American citizen shocked these judges would be allowed to remain on the Durrani cases.

29. The Ohio Supreme Court, after years of our making the argument, only enforced the law tolling all time frames based upon Durrani's flight to Pakistan after a motion for reconsideration. The statute is clear. You leave the state. Time tolls. Judge Schweikert ignored it. The Court of Appeals ignored it. The Ohio Supreme Court only woke up after first ignoring it.

30. Ohio Courts ruled fraud is the same as medical malpractice despite there being different elements for the two claims and fraud having a four and not one year statute of limitations.

31. Ohio Courts ruled there is no fraud exception to the statute of repose. This means a doctor or hospital can conceal the fraud for four years and win.

32. Ohio Courts ruled a hospital's negligent credentialing and retention of Durrani was the same as medical malpractice for purposes of the statute of repose. It makes no sense. The elements of the two claims are completely different.

33. The State of Ohio, despite having immunity, statute of limitations and statute of repose defenses (1979 to 1997) agreed after a mere year to pay $60 million to 162 men who were "touched improperly" by Richard Strauss, not for a lifetime of pain from an unnecessary spine surgery. The State of Ohio led by Attorney General David Yost fought paying the 580 Durrani victims in the Court of Claims based upon their not receiving timely trials. No settlement for the Durrani victims.

34. After we won the appeal of the record setting case, Durrani's insurance lawyers requested the Ohio Supreme Court review the matter and those attorneys intentionally failed to copy us on their request in an attempt to ambush us in not fighting their request to the Supreme Court. After using the proper email for our lead attorney over five years, it just so happened on our largest verdict they used the wrong email address. If we did that, we would be punished. Nothing will happen to them. Nothing ever happens to them.

35. These big law firms constantly file over and over again baseless sanctions motions against us.

36. When I faced criminal contempt for speaking out about delays in trials, Judge Schweikert ordered me to waive legal counsel. The Ohio Court of Appeals said nothing on this issue and upheld the sentence. Imagine if any Judge in America ordered a black man to waive his right to counsel and then sentenced him to 15 days in jail. I served eight days in the Hamilton County jail for fighting for trials. I stared Judge Schweikert in the eye and called him an evil man.

37. Ohio caps non-economic damages at $250,000 or $500,000 if it involves a permanent injury to a vital organ. This means $500,000 is the most any of these victims can receive for a lifetime of pain and suffering from their broken spines. Many states have found these caps unconstitutional.

38. The juries in state Court are never told the truth about Durrani being indicted and fleeing back to Pakistan. Judge Schweikert would inform the juries Durrani chose not to be in Court. That's all.

39. When some juries were told of just some of Durrani's credibility issues and lying, the First District Court of Appeals and the Ohio Supreme Court is requiring us to try those cases again.

40. Durrani sexually harassed and mistreated nurses. The inconsistencies, lies, gaps and irregularities in Durrani's background number in the hundreds. It includes a real question of whether or not he is a doctor.

41. Durrani would tell the pain doctor in his practice to inject the pain medicine in the wrong area so that patients would still complain of pain and want surgery.

42. Durrani lied repeatedly about what x-rays, MRI's and CAT scans revealed.

43. Durrani signed prescription pads so staff could hand out prescriptions.

44. Durrani had a dog infected with MRSA he allowed in patient rooms. Patients got MRSA.

45. Research papers by Durrani had to be withdrawn from medical conferences based upon false data he submitted.

46. Durrani performed experimental surgeries without proper oversight and approval.

47. Durrani would lie about kyphosis and scoliosis measurements to perform surgeries.

48. Durrani lied about stenosis and spondylolisthesis to obtain insurance approval to do a surgery.

49. When Dr. Mehlman at Cincinnati Children's Hospital began complaining about Durrani's surgery indications, he was told by his superiors to "be quiet."

50. Durrani's CV or resume has nearly 100 lies and misrepresentations.

51. Hospitals allowed Durrani to operate despite suspensions of privileges for his failure to timely dictate operative procedures. Durrani falsely claimed they were emergency surgeries.

52. Durrani improperly took money from medical device companies including his setting up what is called a physician owned distributorship.

53. Durrani would do more surgeries than proper in a day, sometimes six to ten, including having patients in three operating rooms at once causing patients to be under anesthesia too long.

54. Durrani would leave surgeries and allow fellows to perform the surgeries while he would have sex with his physician's assistant.

55. Durrani once bid on a Lamborghini on eBay while performing surgery.

56. When the DEA arrested Durrani, he told them they should be arresting me by falsely claiming he was working with prosecutors against me for calling him "the Butcher of Pakistan."

57. He blames me and my "Bulldog Nation" for ruining his life.

58. I know what it is like to have a credit card rejected for $1.83 at a parking meter.

59. Dr. Azizkhan, chief of surgery at Cincinnati Children's Hospital, who protected Durrani, went to Nebraska to head up Omaha Children's and was forced out when he attempted to protect another "Durrani" like surgeon.

60. Out of 528 clients only four in fourteen years turned against us and hired other lawyers:

    A. One settled for only $50,000 before trial.

    B. One lost their trial.

    C. One, we won her trial, and she still sued me. A first in history probably. She will never recover anything.

    D. One, the judge dismissed it under a statute of limitations caused by her. She too sued me. She too will recover nothing. (Durrani left a screw next to her aorta. She could have died with any movement. At my request, a surgeon and hospital operated on her for free and saved her life.)

61. The month after Durrani fled, and before the first trial, I suffered a staph infection in my right arm. I was one day from losing my arm and probably my life. I had six surgeries in ten days and tried and won the first trial with an IV in my arm and an antibiotic pack on my waist.

62. Durrani's general surgeon, Dr. Schneeburger, a former South African special forces soldier, threatened Dr. Tayeb, Durrani's pain doctor, with a sniper shot.

63. Butler County, Ohio, the physical location of West Chester Hospital proved such a pathetic venue for our cases there, we dismissed and refiled in Hamilton County nearly 300 cases.

64. I had a death threat on my life.

65. The first Judge who had all the cases, Judge Guckenberger, in 2013, repeatedly asked Medical Protective paid lawyers for Durrani, why have you just not paid the $42 million. The lawyers claimed they needed to see what juries valued the cases. So far juries have valued the cases at $338,645,592.98.

66. During the fourteen years, one of our lawyers, Fred Johnson, died, maybe by murder unrelated to our cases, and another Dominick Romeo, died after a liver transplant.

67. Our first, and main expert, Dr. Wilkey, after twelve years, and being paid millions of dollars, quit on me when he bought into Medical Protective's wickedness and sued me. I sued him back.

68. Retired Judges helped Judge Guckenberger. They included Judge Crawford who ripped Medical Protective for not settling. Judges Jackson, Brogan and Sundermann all expressed dismay too.

69. After assisting me at the outset, under misguided advice by my brother, my father not only quit on me, he tried to steal from me. It resulted in unfortunate litigation involving my home, the family company and the Durrani litigation. I won the settlement because I was right and they were scoundrels in their greed.

70. About five years ago, Medical Protective paid lawyers filed in the Ohio Supreme Court a lawsuit claiming we were vexatious litigators. It has set there without a ruling.

71. We brought Joe Deters, Hamilton County Prosecutor, on our team (no relation) to help us politically. After several years, he abandoned us. We had a severe falling out. He then has worked against us and is now an Ohio Supreme Court Justice.

72. The number of lawyers and employees on our team who have come and gone over 14 years is many. Many stopped believing in the cause and left. Some I had to let go and cut costs. Many remain dear and loyal friends.

73. Maybe one of the most hilarious stories is one of our lawyers, no longer working with us, handled a deposition of one of our clients who stated to him: "You look familiar." The lawyer knew why. He had "purchased" her services once when she turned to the oldest profession to survive. The lawyer, knowing why he looked familiar simply stated: "No. I don't think we know each other."

74. I held monthly meetings with the victims for over a decade. These were to update and support. My Dad attended one. He said he couldn't attend any more of them because he saw too much pain. Not me. I attended every one of them.

75. I have updated the victims every week for fourteen years. We must address question and issues every day from 528 victims. Some call a lot. Some a little. Some just wait. They are all most deserving of my sacrifices.

76. Sabrina Cain took photographs and videos of the victims. She believes it caused her Post Traumatic Stress Disorder.

77. On the weekend, out of nowhere, Glenn Feagan, former law firm owner, informed me he had several heart attacks and the stress was too much for him. We transferred the law firm to David Drake.

78. We have documented this entire stay in word, photograph, video and audio. Depositions. Trials. Court hearings. Encounters. Meetings.

79. On our verdicts against Durrani, the Courts subtract money our clients received from hospital settlement as Ohio law dictates.

80. There are substances Durrani used in these surgeries called BMP-2 and PureGen. They increase the risk of cancer and cause throat issues. Durrani used BMP-2 in a manner not approved by the FDA, including in children. PureGen was never approved by the FDA. Despite clear law permitting a jury to consider an increase likelihood of cancer, Judge Schweikert never allowed it.

81. The pharmaceutical and medical device industry have been given immunity by Congress. This applied to BMP-2 and PureGen.

82. Durrani practices in Pakistan at a hospital with no Pakistani license.

83. On the morning of a mediation in 2017 which could have settled all the cases, Chief Justice Maureen O'Connor removed Judge Robert Ruehlman from all the cases. Judge Ruehlman had set all of the cases for conclusion by the end of 2017. This was eight years ago. It would all be over. This event is no coincidence.

84. In addition, the defense lawyers appealed to the Ohio Court of Appeals and Ohio Supreme Court and lost the issue of consolidation of the cases with Judge Ruehlman.

After losing, they simply appealed the same issue again. Nuts. They lost again at the Court of Appeals. On the morning of our scheduled mediation, this time, despite ruling on the same issue earlier our way, the Supreme Court reversed course. Coincidence? No.

85. Rather than have the elected 14 Common Pleas judges handle the cases, Chief Justice Maureen O'Connor chose a non-elected Judge, Schweikert, who ran the lobbying arm of the Ohio Supreme Court which supported pro-healthcare legislation. She took the Durrani cases away from 14 judges who had cases set for trial and gave them to one.

86. Ohio and Kentucky allow anyone to defame an attorney without the lawyer being able to sue for defamation. Matt Hammer signed an affidavit under oath that I forged his signature to an affidavit of disqualification of Chief Justice O'Connor. It was a lie I proved. He signed the affidavit, not me. I was not allowed to sue him for defamation despite Kentucky using that lie as part of my reinstatement process. They claimed my lawsuit against him was witness intimidating. He was never prosecuted for perjury.

87. There are 580 cases. The Court clerk charges $1 per page for any filing Judge Schweikert refused our solution of one case number for group filings to save the costs. Who has to pay these costs? The victims and me. Over a million dollars.

88. Judge Schweikert accused me of bribing a juror with a potato chip and tampering with a jury by inadvertently leaving a paper on a Court bench.

89. Judge Schweikert sanctioned one of our lawyers once for $60,000 in court costs claiming he made "claims" in the cases we should not have. It was and is ridiculous. He never applied this standard to Durrani's lawyers.

90. Judge Schweikert after the four hospital settlements actually attacked our fee agreements simply because our lawyer had not signed them. The clients signed them. After six years of work, he was trying to cheat us out of our fees. All the clients signed new agreements.

91. I wrote a letter to every Ohio State legislator, Democrat and Republican about the statute of repose. Not one legislator responded. The Ohio voters would never want that law. Like so much law, it was passed based upon healthcare money, not the best interests of Ohio citizens.

92. Have you seen those attorney commercials for the water contamination cases from the Marine base Camp LeJeune? Congress passed a special law after the fact to allow victims to sue past the deadlines and waive immunity. No such help for Durrani victims.

93. Not one Congressman in Ohio or Senator has done anything for the Durrani victims. We asked them.

94. All you MAGA types. Let me break this to you. In Ohio, the Republican Judges are not your friends. You are a fool to vote for them, especially those running for Ohio Supreme Court. They are Bush Republicans. When a Judge says, "I will only follow the

constitution and not "make" new law." What he really means is he is going to run right over you. If you are a human being in Ohio who votes, you should vote for the Democrat judges to the Ohio Supreme Court. This is coming from a MAGA independent.

95. The lawyers for UC Health, including Charles Pangburn III, blocked four doctors in 2009 from sending a warning letter to the Ohio Medical Board. This action could have saved thousands from Durrani. Pangburn is off somewhere enjoying his retirement. He has blood on his hands.

96. U.S. News and Reports performs hospital rankings in a bizarre secret manner. This is the source of Cincinnati Children's Hospital once touted #1 ranking. It is all done in a public excluded secret fashion. If you tried today, you could not find or contact them. A hospital who allowed Durrani to perform unnecessary spine surgeries on children for money has been #1.

97. Cincinnati Children's Hospital used their reputation to hoodwink poor unsuspecting parents who carry guilt to this day.

98. Cincinnati Children's Hospital also faces the following:
    A. 300 claims against Dr. Howard Saal who abused disabled children.

    B. A class action for weaponizing Child Protective Services against parents.

    C. Massive billing fraud.

    D. Two lawsuits for fraud for hiding of the Dr. Durrani's employment contract for thirteen years and not producing it to the victims' legal counsel. They also face a contempt hearing for this conduct.

99. Durrani's lawyers ordered Durrani not to answer questions at his deposition in 2018 over 50 times and Durrani pled the Fifth 100 times and then the lawyers claim Durrani failed to cooperate with his insurance company. Judge Schweikert never allowed a jury to hear this.

100. I am convinced Durrani's flight after his federal indictment was orchestrated by Medical Protective and the attorney they hired to represent him. Their motivation? Their attempt to cheat the victims out of $42 million in insurance coverage. No one has ever recognized that it was my actions that saved this coverage for the victims by my recording a phone call with Mike Lyon, Medical Protective's lawyer.

101. Every complaint with the Ohio Disciplinary Office we filed against the law firms defending these cases was stayed because it involved pending litigation. Every bogus complaint against us was investigated. A double standard proving who controls the system.

102. Despite admitting they never talk to Durrani, the defense law firms represent him through trial and make all the decision without him. This is an ethical conflict Ohio does nothing about. If we never spoke to our clients, their cases would be dismissed.

103. Warren Buffett owns Medical Protective. He donated $5 billion in charity in 2024. He blocks Medical Protective from paying the last $40 million to the Durrani victims.

104. For five years, Medical Protective and their lawyers lied to us about Durrani being available for a deposition. How did we prove it? Durrani's own testimony. He admitted in sworn testimony he always wanted to defend the cases. This is the basis of the fraud lawsuit Judge Barrett dismissed. When asked if he received requests for depositions, Durrani's lawyers told him not to answer to protect their fraud. Judge Schweikert never made him answer. (More on Judge Barrett later.)

105. Dinsmore and Cincinnati Children's threatened inside whistleblowers with HIPAA violations. It does not apply to whistleblowers. A brave orthopaedic surgeon at Children's did speak out. Children's disciplined him and later fired him. His name, Dr. Charles Mehlman, DO. He is suing Cincinnati Children's Hospital.

106. In the history of medical malpractice law, I bet Dr. Mehlman is the first doctor ever to testify against his hospital employer in a medical malpractice case. He has about a dozen times and plans to 21 more.

107. Despite kicking Durrani out of Cincinnati Children's Hospital, no one from West Chester Hospital contacted Children's to check why he left and no one from Children's told West Chester Hospital. No one told his patients. He was asked to leave based upon personal conduct (affair with his physician assistant) and unnecessary surgeries.

108. None of the hospitals ever reported Durrani issues as required to the National Practitioner Data Bank.

109. Durrani's lawyers have refused to inform Durrani of our offer for him to assign his bad faith claim against Medical Protective to us. In a great irony, Durrani's insurance company has not protected him from hundreds of millions of dollars in punitive damages not covered by the policies. Durrani has the largest bad faith case in insurance history he will not file. Why? He owes Medical Protective for his freedom.

110. Dinsmore lawyer, David Brittingham, suborned perjury. This means he coached perjury. He did so related to Durrani's administrative assistant. Hamilton County Prosecutor, Joe Deters, no relation, refused to prosecute him and Ohio did not discipline him.

111. These large law firms are constantly and intentionally citing cases for law which the cases do not represent. They lie. They are never punished.

112. These large law firms just bill, bill and bill their friends who run their so-called non-profit hospitals pay them all they want. Medical Protective does the same with Durrani's lawyers.

113. There is a bogus legal principle that even though an insurance company (Medical Protective) pays for their insured's (Durrani) lawyer, the lawyer represents Durrani not the insurance company. It is the greatest bogus legal fiction ever. Who would believe you would be more loyal to your "client" than the company who "pays you." We have proven the fraud in the so called "wall" between Medical Protective and his lawyers.

114. The local and regional media have ignored this story based upon hospital advertising dollars. This includes all four of Cincinnati's television news stations, the daily newspaper in Cincinnati and the largest news radio station.

115. In 2023, I offered a $1 million award for Durrani's return to the U.S. I raised it to $2 million. The media even ignored this.

116. Not one member of the Cincinnati media has attempted to unseal the verdicts. This is common practice by the media in all sealed Court order matters.

117. Not one Cincinnati media outlet covered the book release of "*The Butcher of Pakistan*" where over 300 people attended. A record for a local book release.

118. In the history of Hamilton County, it is believed I am the only person ever banned from a courtroom and banned from the courthouse. Banned from the courtroom by Judge Schweikert because he despised my assistance to our team. Banned from the courthouse by Judge Kubicki because I used a metaphor during the George Floyd riots: "Do we have to burn down the courthouse to get our own trials?" The media covered these stories.

119. The Kentucky Bar Association actually has a rule to try to keep an attorney from retiring. You can't make it up. Only an organization of lawyers would have such an absurd rule. Whatever your profession, imagine if you were told you could not retire? I have not bothered to sue on this. A Court would probably rule it is constitutional.

120. Despite my only doing what Ohio approved after my retirement, I am constantly and falsely accused of the unauthorized practice of law.

121. While non-lawyer staff every day in America are allowed to sit at counsel table and assist attorneys, courts do not allow me to do it.

122. The Kentucky legislature passed a law directed at me to make the second charge of unauthorized practice of law a felony. I have never been criminally charged with this once, much less twice.

123. The Kentucky Bar Association and Kentucky Supreme Court used the rule I now describe against me. They allow their attorney to object to automatic reinstatement from

a suspension and force that lawyer to go through a reinstatement process. They forced me through that in back-to-back years. This rule is like a prosecutor objecting to a prisoner being released after serving their sentence and the prisoner having to convince a judge to let them out. The Sixth Circuit Court of Appeals ruled that law constitutional. I have never been disbarred. There is no basis. But the KBA took a 60-day suspension and has kept me out for 14 years. All this despite my committing no crime, harming no client, committing no fraud, no acts of moral turpitude and doing not one dastardly deed.

124. The KBA reported me to the IRS criminal division. The IRS investigated me for not paying income on money I borrowed for the cause. It was not income. It was money I borrowed.

125. The FBI is investigating Medical Protective and everyone involved in this ordeal.

126. Medical Protective filed charges against me to block protests in Ft. Wayne, Indiana at the home of CEO Tim Kenesey and the headquarters of Medical Protective.

127. The KBA accused me of wanting to overturn the U.S. government when I said on my radio show over a decade ago that I believe only an armed march on Washington could probably save America.

128. I am a man without a political party. I loathe both parties and both parties loathe me.

129. Ohio and Kentucky investigated me for lending and giving 200 victims various sums of money over the years for saving the victims from utilities turning off, evictions, foreclosures and other issues. They assert this is an ethical violation. The defense lawyers do not have clients with these problems.

130. Based upon disciplinary rules, I had to retire my Ohio license to work on the cases based upon reciprocity with Kentucky.

131. The KBA tried to hold me in contempt for working in a law firm where I was suspended. It was not true. It was a new Ohio law firm. The KBA adopted the same rule as Ohio because of me. Despite it not applying, they charged me with contempt. The Kentucky Supreme Court got it all wrong and after I "educated" them they have left me alone. My motion sits ignored and pending before the Kentucky Supreme for four years.

132. In 2024, the entire Ohio legislature, every Republican and Democrat, in the House and Senate, passed a law which removed from the law any extension to file a claim if a doctor fled the state. It was passed solely to protect Dr. Durrani and Dr. Durrani like doctors. Governor Dewine signed it. It was the "Dr. Durrani Protection Act" as I like to call it. The lead sponsor? William Seitz who also works at Dinsmore legal counsel to Cincinnati Children's Hospital and Medical Protective.

133. The Ohio, Kentucky and Indiana Attorney Generals and Departments of Insurance ignored all of Medical Protective's conduct. I sent all this to them.

134. Medical Protective preposterously sued me for "extortion," "abuse of process" and "defamation" for all the litigation against them. So, the insurance company who we have fought for 14 years, who have committed massive fraud, sues me. I have counterclaimed and have sued them back. I will win.

135. A GoFundMe Account for the Durrani victims raised only $300.

136. David Brittingham of Dinsmore Shohl hid Durrani's employment contract with Cincinnati Children's Hospital for thirteen years. A Contempt Motion is pending.

137. My creative guerilla financing keeps the cause going. When the story is told how I have done so in recent years everyone will know what might be the best and funniest story of the story. I can not reveal it to the enemy.

138. During this battle I have been betrayed by many I could never conceive of betraying me.

139. My forced retirement cheated the victims out of my skills at trial. I am grateful Alan Statman and Ben Maraan try the cases after I and the team prepare them.

140. All the Durrani lawyers, despite rules prohibiting it, did all they can with Kentucky and Ohio to "take me out." They hate I survived and thrive.

141. Not one of the lawyers and judges who hate me have never, could never and would never do what I have done for these victims. Yet, they judge me. They defame me. They belittle me. They marginalize me. I know the truth of what I am about and what they are about. I recently sued every one of them for their conspiracy against me.

Can you believe all of that? It is all true. All ignored by the media. And we still fight. And, there are 1,000 more stories I can not share until the battle is over because our enemies can not hear them until the story is over.

~~There is no longer time for irrational patience. The Durrani litigation should have never~~ been this difficult.

Murder may not be the solution, but I ask you this question. Why did it take Luigi Mangione to murder Robert Thompson, President of United Healthcare to get attention to United Healthcare's fraudulent practices? Because that is how the media works. They have ignored all in this speech, but what would happen if I murdered CEO Tim Kenesey? National news! I will not commit murder for our cause only because I value my freedom, not because Tim Kenesey does not deserve a horrible death of spine cancer, not murder.

To give deference to pompous legal ceremony would be a betrayal to the Durrani victims who in the words of Patrick Henry have indulged in the illusions of hope far too long.

The anguish endured by the Durrani victims and myself on their behalf would break lesser souls.

Rather than receiving justice, Lady Justice kidnapped by Durrani and his co-conspirators, tore off her blindfold and snickered and sneered at the Durrani victims and myself. It is the insidious performance of scoundrels.

Long ago, I stopped deceiving myself with misguided faith in the so-called legal system. A system which has not betrayed us by a kiss, but malevolent delay.

When someone in position and power to act for justice and good, does not, that person deserves public acrimonious rebuke, so they pay a price for their accommodation to evil.

The Durrani victims deserve a just end to their noble struggle and I am committed to that endeavor.

Based upon the Durrani and his co-conspirators' conduct, no more repugnant human beings have ever served as lawyers, the judiciary and the legislature.

Durrani and his co-conspirators have subterfuged the justice system with excruciating depravity.

Durrani and his co-conspirators attempted to cause weakness and trepidation, but they never counted on the Durrani victims and myself possessing collective resilience to hold them accountable.

Durrani and his co-conspirators, like the Devil, rationalize all their sins.

Durrani and his co-conspirators have unquenchable thirst to fulfill their scheme with their very souls for sale.

How is it that I, as the man who finances the Duranni victims' battle for over thirteen years, speaks out publicly about their plight, risked everything I have twice and who is appreciated by the 580 Duranni victims, is the person the court system and the legal system HATES and the Durrani and his co-conspirators, judges, lawyers, media and the system all portray me as the issue as opposed to Durrani, the hospitals, Medical Protective, the legal system and the court system. It is pathetic.

Durrani and his co-conspirators, Medical Protective, the hospitals, Durrani, and Ohio's large law firms led by Dinsmore and all the attorney whores who take Medical Protective's silver. They know if they break me or break the Duranni victims, they will break this most righteous cause.

The lawyers representing Medical Protective, Durrani's insurer, in open court, told Judge Barrett they are concerned I am the problem in resolving this matter. Why? Because I refuse as the victims' advocate to recommend to these victims that they should accept some low-ball pathetic number Medical Protective and Judge Barrett wants them to accept. In other words, Medical Protective, Judge Barrett and the co-conspirators hate me because I will not do what they want in the face of unrelenting pressure.

It is no secret and has been voiced by the Medical Protective paid attorneys for Duranni, that I am the "problem" with resolution. However, that is not an issue for the Duranni victims because they want their trials and honest justice.

The Court system, the Durrani and his co-conspirators, the defense lawyers, and Medical Protective all have attempted repeatedly to turn me and the victims against each other. It will never work. Why? Because I will never betray the victims and they will always support my efforts on their behalf. We are united in this most righteous of causes.

The Judges are paid by taxpayer dollars which includes taxes paid by the Duranni victims.

Dante wrote in his "*Inferno*" that the lowest place in hell is for those who remained quiet when they should have spoken up. I am confident hell awaits the media and others who have failed us.

Thomas More is the patron saint of lawyers. He gave up his head on principle. Medical Protective lawyers, have no principles. All would have readily supported Henry VIII's Act of Supremacy.

Edmund Burke is credited with: "All that is necessary for evil to triumph is good men do nothing." The media are bad men and women who do nothing.

Emerson wrote: "Good men should not obey the law too well." I agree as the law is so corrupt.

The KBA Character and Fitness Committee, when I channeled Morgan Freeman ala "*Shawshank Redemption,*" just stared at me when after asking me if I would follow ALL their rules, I asked them: "Have you not heard of Rosa Parks?" There are no more absurd rules than the rules of bar associations.

At this KBA hearing, I warned them. Reinstate me and keep me chained. Do not, and I shall be free to speak the truth about the legal system, lawyers, and judges from the mountain tops.

Shakespeare wrote in Julius Caesar: "A coward dies a thousand times before his death, but the valiant taste of death, but once." The Durrani and his co-conspirators are walking zombies.

Martin Luther King, Jr. warned "Injustice anywhere is a threat to justice everywhere." It is.

The rules of the legal and court system prohibit lawyers from speaking out against lawyers and judges. The false assertion is it would bring disrepute upon the system. The system, Durrani and his co-conspirators bring dishonor upon itself. How foolish is it to prevent those who know the truth from speaking out? I know of no profession who has this same rule. Ever hear a rule that plumbers and cosmetologists cannot bad mouth each other?

The entire legal system is made to control lawyers as the large law firms want them controlled.

William Gladstone is the one who declared: "Justice delayed is justice denied." Former Chief Justice Maureen O'Connor touted that maxim in a law review article she wrote as Chief Justice. Yet, she was content with Durrani victim trials going one at a time for 25 years. Durrani and his co-conspirators protect the maxim. "We delay justice so there is no justice".

The legal establishment clamors: "We are a country of law." "We have the Rule of Law." It is balderdash spouted by popinjays.

I have been an active participant and observer in the events of this region since the age of eighteen when I began paying attention, reading newspapers, watching the news, and participating in politics, law, and business. The manner in which the politicians, media, and so-called business leaders all claim how wonderful this region is while remaining silent on the Durrani saga proves their hypocrisy. All remained silent while Durrani butchered his victims. They remained silent when it came to light. So-called pillars of the community sat, and sit, on those hospital boards. All these prattling swag bellies have remained silent even after all the truth and all the struggle.

I condemn them all. I scorn them all. I judge them all cowardly wagtails. The facts condemn them. The truth condemns them. The Duranni victims condemn them. I condemn them. A just God will condemn them.

I carry the burden of the Duranni victims every day 24/7/365. It never leaves me. For fourteen years, I am always thinking and taking action. I tell everyone on our team that all I care about is that I and the victims always stay together. In the end, we can't lose if that is the case. And it will be.

For fourteen years I have not had a day off from this cause. The victims have not had a day off from their pain. The Durrani and his co-conspirators and their co-conspirators have not had a day off their privileged country club lifestyle.

No one should ever have had to explain to these Duranni victims what I have had to explain to them for over fourteen years based upon the actions and inactions from the legal and court system.

The manner in which the victims of Durrani have been treated by the Court system is unforgivable. It is a permanent stain upon the sanctimonious institutions of law.

Contrary to their self-aggrandizement, the indisputable truth is there is not a more lazy, corrupt, greedy and evil profession than the legal profession. That profession victimizes the public every day on a grand scale.

My life calling is to fight for people against injustice. My life maxim is a Theodore Roosevelt quote: "Aggressive fighting for the right is the noblest sport the world affords." I am engaged in that sport. Fortunately, I am blessed with the mental and physical attributes to do it. I have what a dear friend calls "push strength."

The apathy of our region includes the following who have the power to do something to alter the course, but are complicit and co-conspirators:

1. The Media
2. Our Fortune 500 Companies
3. The Hospitals
4. The Ohio Bar Association
5. Governor Dewine and AG Dewine when he served in that position
7. Ohio AG David Yost
8. The Ohio Legislature
9. Ohio Board of Claims
10. The U.S. Attorneys in Southern District Court
11. AG Merrick Garland
12. AG Robert Barr
13. Ohio Senators and Congressman

I believe AG Pam Bondi and FBI Director Kash Patel WILL do something.

All know what happened. I have sent letters and emails. I have made calls.

All could or could have done something.

Not one has. Not one will.

They are all bought and paid for. They are all cowards. They will be where Dante claimed them to go.

Since when is apathy a virtue for a community?

For a profession?

The hypocrisy is monumental.

We hear:

"Justice delayed is justice denied."

"We are a country of laws."

Because of the recent developments, I must close with the inactions and actions of Judge Michael Barrett.

On June 24, 2024, I sent an email to Judge Barrett, copied to all counsel of record, which informed him the Durrani victims would not capitulate to his plan to delay his rulings until we broke, and the victims wanted their trial and no more wasted negotiations. It stated as follows:

The purpose of this email is to express on the strongest of terms that the victims of Durrani represented by Drake Law have ZERO interest in negotiating with Medical Protective. ZERO.

There will not now or ever be negotiations with Medical Protective until after a jury trial on the fraud case even if that must happen after an appeal of an erroneous decision.

We shall litigate trial cases, obtain verdicts and collect what we can from those verdicts until the end of time.

Alan Statman forwarded to me the forms Rick Porotsky drafted for him and the victims.

Attached is my affidavit in response to those forms.

Before Rick Porotsky claims that I am not authorized to send this email, as stated in my affidavit, the Durrani victims can take advice from their spouses, their children, their neighbors, their relatives, their friends, their barbers, the person who mows their grass and a stranger on the street. Every single day in America those involved in litigation listen to those same individuals. They are listening to my advice which is we have had enough.

Every one of the victims that Drake Law represents will be receiving this email and my affidavit, as well as, the 25,000 on my email list and the 300,000 of my social media friends and every member of the tri-state, regional and national media who ignore this story every day.

The day is coming when the world will know what has happened. There is no bigger black mark on the legal and court system in the history of America. Television will finally get the job done. I only wish the process moved faster, but it is moving: movie, documentary and scripted series. All three. They love the story that much.

I communicate and have communicated with these victims for eleven years. I am allowed to. I know what they want and what they deserve and they do not want to waste one single minute with Medical Protective's bogus mediations. Over the last eleven years, there have been dozens of wasted so-called mediations.

I am a fully disclosed witness in Medical Protective litigation. I am the one who will tell the jury in the fraud trial everything that happened relative to the claims. I am the one person who has been there from the beginning.

Two lawsuits have now been filed by all the victims against Ricky and Dinsmore for tortious interference.

A lawsuit is also being filed next week against all the lawyers and law firms paid for by Medical Protective who have been trying the cases without ANY communication with Durrani.

A lawsuit is also being filed next week against the experts (whores) hired by Medical Protective in these cases.

A lawsuit is also being filed against the entire Ohio Court system under equal protection, due process, fraud and corruption.

I am all four riders on that pale horse. I am that "Law Abiding Citizen" who has had enough. My affidavit will be filed under seal for the record and full disclosure of my testimony since Ricky is too scared to depose me.

Chips fall where they may and I and the victims will act accordingly.

I have no intention of sending you future emails. This one was necessary to stop the illusion of any mediation which I am certain only comes about after our lawsuits against Dinsmore. Sometimes it seems no one reads all the evidence we have filed.

Judge Barrett never responded directly or indirectly.

On July 19, 2024, my judicial conduct complaint of May 2024 against Judge Barrett was denied.

On May 8, 2025, David Drake sent a letter to Judge Barrett. The entire letter stated as follows:

Dear Judge:

Alan reported your new certification requirement. While that is your punitive prerogative towards us, I want you to be aware that you are the only judge requiring this action. We have litigation in the following courts in which we engage Alan and none of them require your rule:

1. *Ohio Supreme Court*
2. *Ohio Appeals Court*
3. *Other Ohio Federal Judges*
4. *Ohio State Judges*
5. *Judge Reece*

6. *Kentucky Supreme Court*
7. *Kentucky Appeals Court*
8. *Kentucky State Courts*
9. *Kentucky Federal Courts*

Neither the Ohio Disciplinary Counsel nor the KBA have required your certification. I suspect your requirement is unprecedented.

Now that you have implemented this requirement, Rick Porotsky will inform all our other opposing counsel, and before long, we will face the issue in every Court with opposing counsel invoking your rule as the basis for the request.

While you inexplicably denied my Motion Pro Hac Vice without a stated reason, it does not change the fact I hold the contracts for the cases. I have never heard of a Motion Pro Hac Vice denied for any attorney in good standing, as I am.

It is another example how we are burdened and mistreated unfairly based upon someone's misplaced concern, in this case yours, relative to Eric Deters, rather than direct proper animus towards Medical Protective and their counsel's conduct.

It is truly remarkable.

On May 30, 2025, I filed another judicial conduct complaint against Judge Barrett.

On September 3, 2025, I sued Judge Barrett.

On November 6, 2025, I filed a review of the Judicial Complaint regarding Judge Barrett.

On November 10, 2025, I filed an Objection by Plaintiff to Report & Recommendation in 1:25-CV-386. This is my defamation lawsuit against Rick Porotsky for the false claim I engaged in the unauthorized practice of law. I wrote: "In addition, Joe Deters told me she and Judge Barrett were lovers. She was his clerk." She being Magistrate Stephanie Bowman.

I maintain and allege that after this filing Magistrate Bowman communicated to Judge Barrett. I must add that Judge Barrett is, has been and always will be a known libertine.

On November 19, 2025, after years of delay, Judge Barrett Dismissed 1:20-CV-170, the fraud case against Medical Protective. We have appealed and I am confident of a reversal.

On November 20, 2025, Judge Barrett dismissed four "force to pay" lawsuits: *Adams* 1:24CV207, *Bender* 1:25CV67, *McCann* 1:24CV208 and *Potts* 1:24CV507. These were cases to force Medical Protective to pay verdicts. We have appealed and I am confident of a reversal. Judge Barrett claimed the fraud and negligent verdicts could not be separated and fraud was not covered under the policy. This is directly contrary to Ohio law.

I maintain these dismissals are in retaliation and a result of my suing Judge Barrett and my statement regarding Magistrate Bowman. However, I succeeded in getting Judge Barrett to rule. He was purposefully doing nothing to force us to settle for peanuts.

In case 25-Ci-1761, I sued Warren Buffett and his Executive Assistant, Debbie Bosanek. Egleson and Chianese from a 2000 attorney International Law Firm and Porotsky from Dinsmore have been representing Buffett and Bosanek without proper retainment and contact with their clients. Tim Kenesey, CEO of Med Pro has orchestrated and controlled the representation.

Medical Protective sued me in Case No. 1:25-CV-00630 on August 27, 2025. Chrisotpher Egleson, Christina Chianese of Sidley Austin, LLP and Richard D. Porotsky of Dinsmore & Shohl, LLP filed the lawsuit in retaliation of my filing 25-Ci-1761. They accuse me of "extortion" based upon the lawsuits filed against them. It is preposterous.

Egleson, Chianese and Porotsky placed in the lawsuit in 1:25-CV-00630 that they filed an Ohio discipline complaint against me which is a violation of my privacy and Ohio legal ethics. I have never received a copy.

In 1:25-CV-00630, Egleson, Chianese and Porotsky made 33 lies and misrepresentations in their lawsuit against me as follows:

a. "abusive lawsuits"
b. "threatened the safety as well as the personal and professional livelihood of Med Pro's CEO and falsely accused the company and its senior officers of hiring someone to kill him."
c. "outright extortion through threats of violence and murder and by blackmail against the company's CEO"
d. "retaliatory lawsuits"
e. "proxy counsel Deters had recruited"
f. "menacing online postings, Deters has personally threatened Med Pro's CEO Tim Kenesey"
g. "threatened violence against Warren Buffett"
h. "threatened the lawyer working on Med Pro's cases."
i. "sought to blackmail Med Pro and Kenesey"
j. I have never claimed Med Pro took a "hit" out on me.
k. "engaged in the unauthorized practice of law through his activities and communications with residents of Ohio who are and were plaintiffs in litigation that he financed, directed and/or controlled"
l. "campaigns of defamation and extortion."
m. "pattern of professional misconduct."
n. "vexatious suits."
o. "submitted pleadings riddled with false statements."
p. "filed at least one lawsuit for parties who never hired me."
q. I never filed a false affidavit accusing a judge of having an "improper" relationship with opposing counsel.
r. I never lied to any Court about the date an LLC was formed.

s. "nominally transferred."
t. I have never "threatened" harm to a judge.
u. "extortionate"
v. "employing proxy attorneys"
w. "continued to act as an attorney"
x. "illicit framework"
y. "behind a curtain"
z. "proxy owners"
aa. "enabling lawyers"
bb. "what do we have to do to get trials, burn down the courthouse?"
cc. "extortionate scheme"
dd. "vexation"
ee. "possessed the military training."
ff. My statement about the FBI is true and I'll prove it true. They claim it false.
gg. "acted as an attorney"

Judge Michael Barrett expected the victims and I to accept what is unforgivable. He expected us to accept his doing nothing. He wanted us to do nothing. I will no longer do nothing. What follows is all more truthful facts which Judge Barrett cannot dispute.

In 2013, Judge Barrett and Magistrate Stephanie Bowman, despite the justified concern of the U.S. Attorney's office that Durrani was a flight risk to Pakistan based upon his yearly return there, and his father dying of cancer, allowed Durrani out on his own recognizance on federal criminal charges.

Magistrate Bowman served as Judge Barrett's law clerk before becoming a Magistrate Judge.

In December 2013, Durrani fled to Pakistan and never faced a jury on his criminal charges.

Medical Protective, Durrani's insurer, then used Durrani's flight as part of the lack of cooperation defense which we successfully defeated. In other words, Judge Barrett and Magistrate Bowman delivered a defense to Medical Protective with no consequence for their folly fallen action.

Judge Barrett and Magistrate Bowman have never apologized to the Duranni victims for their foolish release of Durrani.

In 2018, in the Durrani litigation, Judge Barrett "sat on" his ruling to allow Dr. Keith Wilkey to testify for the victims against West Chester Hospital to pressure the victims to settle with West Chester. Dr. Wilkey after extensive testimony outside the presence of the jury, was obviously qualified, but Judge Barrett knew that if he allowed Dr. Wilkey to testify, the victims would not settle and would have an opportunity to receive large verdicts against West Chester. Judge Barett did all this to assist West Chester, U.C. Health and their attorney, Walt Haggerty, to avoid a significant risk and to harm me and the Durrani victims.

In addition, West Chester had a diminishing insurance policy which paid attorney fees. After spending millions on attorney fees and being unsuccessful in being dismissed, West Chester still faced over 400 trials. Therefore, Judge Barrett forced the settlement to assist West Chester and Walt Haggerty in what I called the "Walt Haggerty bailout."

Judge Barrett ordered all the Durrani victims with a claim against West Chester under threat of contempt to his Court in 24 hours so he could pressure a settlement with West Chester.

In thirteen years, Judge Barrett has never ordered CEO Tim Kenesey of Medical Protective to Court or mediation.

By his irregular and inappropriate conduct, Judge Barrett forced a settlement upon the Durrani victims against West Chester. He unlawfully attempted the same to the Duranni victims for Medical Protective.

In the individual Durrani cases Judge Barrett tried based upon diversity in 2018 and since, he has NEVER finalized them for proper appeal causing a decade of delay in collection of verdicts.

In the Medical Protective fraud case, *Adams*, Judge Barrett denied David Drake's Pro Hac Vice, who is a lawyer in good standing. Those are never denied. David Drake owns the contracts for the Durrani victims.

Judge Barrett set three one-year discovery periods in the Medical Protective fraud case, *Adams,* without a trial.

Judge Barrett ruled our expert against Medical Protective is not relevant testimony despite the handling of Medical Protective's claims is most relevant. Medical Protective did not disclose an expert witness during the discovery period.

Judge Barrett forced the Durrani victims to dismiss a case against Mike Lyon, a Durrani lawyer, based upon Lyon's lies. Judge Barrett demanded we do so with prejudice so we could not refile it.

Acting as an ongoing mediator, Judge Barrett controlled delay.

Mike Lyon lied to us and Judge Barrett on Lyon's promise to drive to Ft. Wayne and secure a settlement and we are trying to undo the dismissal to this day.

Judge Barrett has never apologized to the Duranni victims for this strong-armed judicial conduct.

Judge Barrett once by telephone, baselessly threatened Glenn Feagan, former owner of the Durrani victims' contracts, with his law license over the employment of me. This was an illegal and unlawful threat.

Judge Barrett has repeatedly publicly and privately defended former Cincinnati based class action lawyer, Stan Chesley, despite all of Chesley's conduct which led to his retirement in lieu of disbarment in Ohio after his disbarment in Kentucky. Yet, Judge Barrett is obsessed with what I may be doing which unlike Chesley's criminal activities, is lawful.

Justice Deters worked for Stan Chesley and Judge Barrett tried cases with Stan Chesley before he became a judge. They are close personal friends.

Despite his George Bush appointment, Judge Barrett's sponsors to the U.S. Senate were Senators Schumer and Clinton at the request of Stan Chesley.

Judge Barrett credits Justice Deters with his appointment. Justice Deters gave me a copy of this letter. It proves that my relationship with Justice Deters that he did share such facts.

I want to stress. My former buddy, Judge Barrett's close friend, and Supreme Court Justice Joe Deters is my source for some of Judge Barrett's conduct.

Judge Barrett wanted the Durrani victims represented by me before my retirement to also retain the legal services of his lawyer friend, David Kamp, who actually malpracticed his four Durrani cases by not naming Children's Hospital. I refused. David Kamp is now at Dinsmore. Dinsmore represented Children's Hospital. In addition, David Kamp formerly made his living from referrals from Dinsmore. David Kamp was Justice Deters' divorce attorney.

Judge Barrett, or at least his clerks, have read a thousand of my emails to the Durrani victims he forced us to produce in *Adams*. He knows I did not say one negative word about him over thirteen years. He knows I have had to explain the most unexplainable delays and developments to the victims. He forced us to turn most of these over to Medical Protective's counsel so they could try to use them against me. There is nothing improper in them.

Judge Barrett ordered Drake Law to turn those emails over without considering the privilege protection agreement I had with Drake Law. He simply ignored it. He has violated my contract rights.

Judge Barrett holds a Kentucky Supreme Court Order regarding what I can or can't do despite my now four years pending and ignored Motion before the Kentucky Supreme Court which proves the mistakes by the Court. Knowing they "messed up" the Kentucky Supreme Court will not admit it, they just sit on it.

Judge Barrett is compromised by Medical Protective, Dinsmore Law and his brother, John Barrett of Western Southern who is friends with Warren Buffett, and Justice Deters, and all Barrett's friends from the Duranni related hospitals and law firms.

Judge Barrett has engaged in an extra judicial effort to destroy me and the Durrani victims. He has acted outside his judicial office to do so. He has also used his judicial office in an unlawful and illegal manner.

In *Adams,* Judge Barrett, despite three one-year discovery periods, limited the victims to ten depositions from Medical Protective representatives.

Knowing a trial would end *Adams* one way or the other, Judge Barrett refused for years us a trial or even a scheduling Order. He refused to dismiss our claims too so that we could appeal. Instead, he kept the Durrani victims in perpetual limbo. He did this for five years and counting. It was the most cruel and malevolent conduct.

Judge Barrett's defiance is based upon his knowing he has the protection of a lifetime appointment and judicial immunity. I have challenged his immunity.

Judge Barrett knows the Durrani victims have been rational in the past and tried to resolve their claims with Medical Protective who remained obstinate. There have been countless failed mediations. In thirteen years, over 25 probably, formal, and informal. Medical Protective has never made one offer on a single case and not one single offer in writing for all the cases. Despite this, to this day, Judge Barrett, even in recent months told Alan Statman that if Eric Deters was "out of the way" Medical Protective would "come to the table." Alan Statman informed Judge Barrett Eric Deters is not "going anywhere." Of course, Judge Barrett is simply attempting to help Medical Protective by getting Eric Deters "out of the way." "Come to the table" means nothing.

The Duranni victims no longer want another useless mediation, they want their fraud trial.

Medical Protective's paid lawyers convinced the Ohio Courts that a fraud claim is the same as a medical negligence claim when malpractice is involved. Then, Medical Protective claimed to Judge Barrett they should not have to pay any verdict where fraud and negligence was found against Duranni.

Judge Barrett has ignored Judge Hogan's Order giving me my financial interest in the cases.

Judge Barrett enjoys numerous and lengthy vacations rather than working. His reputation among attorneys is one of delay and laziness. No attorney ever does anything about it or calls him on it. I am.

Judge Barrett double dips on taxpayers with retirement and Senior Status.

Judge Barrett ordered the production of my emails but has protected Mike Lyon's and Medical Protective's emails. While I produced a thousand, they, a few, heavily redacted.

In 2023, during a conference call status report, Judge Barrett promised victims counsel a trial date in April 2024. This date was communicated to the Durrani victims and my creditors to devastating effect when it did not take place. It has been one of my more challenging explanations.

Judge Barrett refused our repeated formal and filed requests for a scheduling Order. This is not normal or appropriate for a Judge.

I want to stress we have a $40 million pot remaining from Medical Protective. That is not going to go away.

This fraud case was meant to give leverage for settlement and obtain more than the $40 million because the victims deserve it and that remains the hope and plan.

When I think for thirteen years, Medical Protective paid lawyers probably $40 million and did not pay the victims $40 million, only $100,000 per person average, I have justifiable anger.

Law must equal justice; simple, swift, fair and impartial; not complex , slow, biased and bought.

You can google Dr. Atiq Durrani. You can read or listen to my book "The Butcher of Pakistan" and learn all the horrific details of this story. The book is available at Acclaim Press and Amazon.

You can go to iHeart Radio, Spotify or whatever your favorite podcast platform is and search for *The Butcher of Pakistan* and then subscribe. Once you subscribe, you will be notified when the next episodes drop.

The irony of the media ignoring all this? Someone from the media could win a Pulitzer covering this story. No one cares. For 13 years, every new development has been sent out to every single local, regional and national media outlet.

I want to thank the creditors, lawyers, staff and experts who have fought this cause with me. I want to thank the victims for their loyalty and trust. I want to thank Divine Providence for giving me strength. We shall win. We shall receive justice.

I know that I have given all I can give to this cause and will keep giving. I have done all I can do. I will do all I can do.

My email is eric@ericdeters.com. My cell phone is 859-250-2527. My website is ericdeters.com. I am on all social media platforms.

I attach a short and long resume so you know who I am. I fight for the "little guy" against "the man" every day.

I also attach a chronology of all the litigation connected to this fourteen year battle and counting.
